---The Statements

HOW LEADERS VIEW
SPECIAL SESSION.

Speaker Champ Clark—On our
record we will sweep the country in
1912.

Republican Leader James R. Mann
---The session strengthened President
Taft and weakened the Democrats
before the country.

Senator Robert L. Owen—The wis-
dom or unwisdom of Taft's views
must be settled by the people.

Senator Joseph L. Bristow—Taft's
veto of statehood was unjustifiable.

Senator F. E. Warren—The ses-
sion showed the people that Taft is
a safe and sane leader.

Representative Victor Murdock —
The country now knows congress is
responsible to its will. The judiciary
must now be made so.

Washington, Aug. 22.—Leaders in
three political branches of both houses
of congress today answered in the
following special statements for the
United Press the query "What do you
think of the extra session?"

By Victor Murdock, Progressive Re-
publican from Kansas.
(Copyright 1911 by U. P.)

"By far the most important thing
that has transpired at this session of
congress has been the announcement
of Representative Underwood that
hereafter caucuses will be open to the
public and press. An open caucus
will do more to shape legislation to
the interest of the people than any-
thing else that could be done by
congress. We have taken two steps
in the right direction in this mat-
ter. The popular election of United States
senators and the passage of a cor-
rupt practices act. The latter does
not go far enough by any means, but
it is certain we will have additional
legislation along those lines in the
near future. (Congress is now re-
sponsible to the will of the people.
The judiciary is not what it should
be, and I am absolutely confident
that it will be made so in the near
future."

"The Democrats in the house
would have been wise if they had
conferred the special session to the
consideration of the reciprocity bill
only. Instead they set out to show
how they could bunco legislation.
The principal legislation which this
session has enacted is the provision
in the Canadian reciprocity measure
admitting wood pulp and paper free
from Canada. The special session
has developed the broadness of Pres-
ident Taft's statesmanship and also
the incompetency of Democrats when
it comes to legislation."

By Senator Joseph L. Bristow (Re-
publican Progressive.)
(Copyright 1911 by U. P.)

"The special session has not ac-
complished what it should have done,
though it has to its credit some sub-
stantial legislation.

"The corrupt practices act will
have some restraining influence on
excessive expenditure of money in
congressional and senatorial elec-
tions.

"The reciprocity bill, I think,
will not produce satisfactory results.
It will slightly reduce the price of
farm products, but not the cost of
living, because the reductions will all
be absorbed by the middle men.

"Efforts of the Progressive Repub-
licans to reduce excessive duties on
manufactured articles failed, through
a combination between the president,
stand-pat Republicans and certain
democratic leaders.

"The passage by the senate of the
resolution for direct election of sen-
ators is the greatest triumph of the
session for progressivism. But that is
tied up in conference because cer-
tain Southern Democrats demand as
the price of direct elections that the
federal government shall give up the
power it has always had to regulate
the time and manner of electing sen-
ators.

"President Taft's veto of the state-
hood resolution was an unjustifiable
exercise of power. Because he per-
sonally disapproves of the recall of
judges, he saw fit to deny the peo-

ple of Arizona the right to frame
their constitution as they think best."

By Senator Robert L. Owen of Okla-
homa (Democrat.)
(Copyright 1911 by U. P.)

"The extra session, thanks to the
Democrats, has removed some of the
barriers to commerce between the
United States and Canada by the re-
ciprocity agreement. Thanks also to
the admission of Arizona and New
Mexico, in which I rejoice to have
had a part. The refusal of the pre-
sident to permit unrestricted consti-
tutional government in Arizona is a
distinct national misfortune. The
recall of judges will be demanded by
the people of the state whenever
they find it necessary. It is a funda-
mental right which every state should
have, whether the policy be wise or
foolish.

"The initiative, referendum and
recall have made a national advance
through the approval by congress of
that part of Arizona's constitution.

"The president himself has been
compelled to concede the right and
justice of the initiative, the referen-
dum and the recall, with the sole
exception of the judiciary. The pre-
sident's refusal to accept the wool
schedule is equivalent to saying that
he is not willing to agree to the pro-
gressive element of his own party. The
wisdom or unwisdom of his views
must be settled by the people."

Speaker Clark declared today that
Democracy had "made good" in the
special session.

"We have made a record that has
surprised our friends and dumbfound-
ed our enemies," Clark asserted. "The
extra session was extraordinary, in
the amount and quality of the work
done in the house by the combined
Democrats and insurgents and the
combined Democrats and insurgents
in the senate, and especially in the
unanimity of action developed by the
house Democrats.

"It was predicted freely, vociferously,
enthusiastically and confidently by
the standpat press and orators that
we would go to pieces. But we have
sorely disappointed all the expecta-
tions.

"Sheered at for years as a party of
mere negation and as being utterly
lacking in ability for constructive
statesmanship we passed through the
house more constructive legislation
and better than has passed through
any house in the same length of time
in twenty years.

"We redeemed every promise made
in order to carry the elections in 1910.
It is a record of which we may well
be proud and on which we will sweep
the country in 1912.

"To show how completely the stand-
pat Republicans are demoralized it is
only necessary to quote the news-
papers statement that there was great
rejoicing at the White House because
we failed by a scratch to override the
president's veto, although we have
only 63 majority.

"To this complexion has it come at
last, that the president who rode into
power by a huge majority, is glad to
escape the humiliation of having his
vetoes over-ridden in a house con-
taining a majority of only 63. Small
favors are thankfully received by the
administration."

Clark paid tribute to the Republi-
can progressives. "Twenty-two," he
said, "had the courage and manhood
to override the vetoes. Every Demo-
crat and every insurgent who stood up
to the rack is entitled to his full share
of credit. We honestly and persist-
ently endeavored to relieve the peo-
ple of some of their burdens of taxa-
tion but the president 'blocked the
game."

BEAR SEEKING
WATER ATTACKS
OIL WELL MAN

Marietta, Aug. 22.—Denying that
moonshine liquor had anything to
do with his vision, Homer Uhl, a
pumper at an oil well station near
Waverly, W. Va., just across the river
from this place, rushed into the
village this morning in a well nigh
prostrated condition.

Uhl declared that he was attacked
at the station by a big brown bear.
His back was terribly lacerated, his
clothing torn to shreds and his
nerves were shattered.

He said that he was bending over
the machinery in the pumping sta-
tion when the bear attacked him. He
said he did not hear the animal's ap-
proach owing to the noise made by
the machinery.

After the attack Uhl ran three-
quarters of a mile to the village,
where he told his story. A posse of
citizens was organized and an old-
fashioned bear hunt is now in progress
in the West Virginia hills.

It is the theory of the residents of
that vicinity that the bear was driven
from the hills by the drought and
that it was compelled to seek water
in the lowlands. A water tank was
attacked by the animal and traces
were visible where it had attempted
to dig under the tank in the hope of
finding water.

RINGLING RECOVERS
FROM AUTO INJURY

Baraboo, Wis., Aug. 22. — John
Ringling, the circus man, is fully re-
covered from injuries received in a
recent auto accident while on a re-
sponsibility run between Minneapolis
and Denver, it was stated by relatives
here. Ringling is now with one of
the Ringling shows on the Pacific
Coast. It was reported that he was
at his home here in a serious con-
dition.

MANY IMPROVEMENTS ARE
MADE AT PUMPING STATION

New Dam Completed and a New Clear Water Basin Is
Ready for Concrete Work—Plentiful Supply of
Water Is Assured By New Dam—Municipal
Park and Play Ground Is Dream of Future.

WATERWORKS PUMPING STATION.
Showing excavation on the east, where a concrete "clear water" basin
will soon be constructed.

NEW CONCRETE DAM
Recently constructed near the waterworks pumping station, which guar-
antees plentiful supply of water at all times.

The board of public service has
been doing a great deal from time to
time to improve the water works
pumping station, both in the way of
equipment and in the appearance of
its surroundings. When the new
clear water basin is completed, the
environment of the station will hard-
ly be recognized.

Up to this time the gates of the
new city dam have not been closed,
since the level reached in that event
would allow about one and a half
feet of water to creep into the bot-
tom of the new basin, upon which
work has only begun.

With the water gates closed, the
level of the water above the dam
will rise about three feet, making a
lagoon holding approximately six
million gallons, with water backed
up stream about 1700 feet before
reaching its natural level.

This body of water will cover
about five acres and will have a vary-
ing depth of from two to six and
possibly eight feet. Sufficient water
will be contained in this lagoon to
supply the city for three days with
the stream perfectly dry.

At the present time the flow of
water in the north fork is the small-
est it has ever been. Yet it is esti-
mated that more than six times the
amount of water needed by the city
flows through the gates of the dam
every day.

The station uses about two and a
half million gallons, while, in addi-
tion to this, about fifteen million gal-
lons flow over every 24 hours. Un-
der present circumstances it is im-
possible for drought to affect the wa-
ter supply.

The new clear-water basin is a
much needed improvement. The ad-
dition of the dam has helped matters
but during the hours of heavy con-
sumption there is an unnecessary
draw on the supply. The authorities
hope to have it so arranged that the
machinery can get at least two hours
rest each day.

The basin is situated just east of
the plant. The excavation has been
made, but the concrete work has not
commenced. A five million gallon
centrifugal pump, driven by a steam
turbine, will be installed near the
basin to draw water from the east-

sons. This water, naturally filtered,
will give a supply from which the
large pump can draw for four hours
without exhaustion.

One of the troubles experienced in
the past was that the infiltration
caissons would not supply the water
evenly, so that air gets into the pump
and it loses suction. In one of those
instances, the follower on the low
pressure cylinder was destroyed,
causing a loss of about \$180.

With the improvements now in
progress, a regular supply will be as-
sured in the caissons, the basin will
hold a reserve for the large pump
and remove the suction, so that the
machinery will never be in danger
and can be allowed to rest for a short
time each day.

Director Christian, of the public
service board, has suggested that the
grounds immediately surrounding
the station would afford opportuni-
ties for an amusement park. When
the water is allowed to fill in above
the city dam, the chances for such
a park will be so remote as one
might think.

The North Fork at that point could
be used for boating and a more pic-
turesque location for a place of re-
creation could hardly be imagined.
Even now many Newark people walk
up the hill to the reservoir every
Sunday, especially citizens in the
North End. The city owns about 90
acres of ground surrounding the
station, including a large part of
Horn's Hill. While such a park
would not be forthcoming in the im-
mediate future, the city can do a
great deal from time to time toward
improving the surroundings, and
when its beauties are once brought
to the attention of Newark people,
the grounds will be appreciated.

The board of public service has al-
ready taken steps in this direction.
The lawn in front of the station is
always well kept and a beautiful
fountain has been placed there.
Street car lines will naturally extend
in that direction, and it is easy to
see that the city grounds around the
station will become more and more
frequented by those seeking recrea-
tion and a quiet place to spend leis-
ure time.

WON'T DISCUSS THE
ASTOR-FOUR PLANS

Fairfield, Conn., Aug. 22.—The
time and place of the coming Astor-
Four wedding continues a carefully
guarded secret. The belief that this
old town had been selected was pun-
dered yesterday when Mrs. Force and
her daughter Katherine, who arrived
on Saturday for the week end, de-
parted for Ashbury Park.

The yacht Nomad, with Astor, his
fiance and his prospective father-in-
law on board, is still cruising off the
coast, those on board refusing to dis-
cuss the wedding plans.

TWO BURNED
IN SMALL FIRE

St. Louis, Mo., Aug. 22.—Edwin
and Tony Braun, brothers, were
burned to death yesterday. Mrs.
Braun, who escaped with four child-
ren, told the police that her hus-
band and his brother had escaped
through the rear of the house, and
that no attempt was made to rescue
them. The men's charred bodies
were recovered.

GOES INTO RECEIVERSHIP.
Norwalk, Aug. 22.—Following a
suit brought by J. P. Link against
the Norfolk Motor Car Company for
an accounting, equitable relief and
the appointment of a receiver, Judge
Reed of Sandusky yesterday after-
noon appointed Harlan L. Stewart as
receiver.

mile trip to New York, 295
miles.

Belle Isle, N. Y., Aug. 22.—A strong
gusty wind baffled Aviator Harry N.
Atwood's hopes of an early start on
his flight from this village to Albany
today. He announced that he would
wait until the wind died out which
was not likely before evening.

Atwood has only 294 miles of his
journey to cover, having put 975 miles
between himself and the Mound City.
He is confident that tomorrow will find
him in the metropolis. Granted favor-
able flying conditions he hopes to
make his record from Albany to New
York one that will remain for a long
time. He expects to follow the Hud-
son river to the Bronx and then will
follow Broadway. His great cross
country flight is programmed to end
at the old Sheepshead Bay race track.

Syracuse, N. Y., Aug. 22.—Dark-
ness forced Harry N. Atwood, the
Boston aviator, who is flying from
St. Louis to New York, to alight in
an unexpected spot about five miles
west of Syracuse last night.

The aviator became lost with his
aeroplane in attempting to fly from
Lyons, N. Y., to Auburn, a distance
of 25 miles. Atwood wandered about
in the air for almost an hour late
in the afternoon before he located
Auburn.

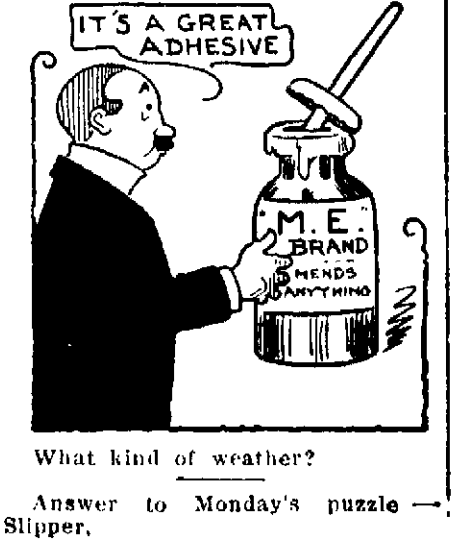

After alighting there he reascend-
ed in the hope of making Syracuse
or Utica, but fearful of again being
lost, he descended when darkness
overtook him.

The delay caused a serious setback
in the attempt which the aviator is
making to break the world's record
in cross-country aeroplane flying.

Detours From Course.
Atwood ascended from Lyons with
the purpose of flying in an air line
98 miles to Utica before night. Just
after he started he decided to detour
from the course which he has follow-
ed along the tracks of the New York
Central railroad, and cut across coun-
try to give the crowds at Auburn an
opportunity to see him. But later
over the farm lands he lost his bear-
ings and not wishing to alight, he
kept circling around, hoping to pick
out Auburn. Over villages and farm
houses he wandered without avail.

Meanwhile great uneasiness was
felt as to his fate by thousands of
people who waited in parks and on
house-tops to see him at Syracuse and
Utica. Anxious messages were sent
over the telegraph wires, but word
came back that after leaving Lyons

he ventured off his course to the
southward and nothing later had
been seen of him.

The usual ten-minute reports of
his progress were lacking. No tele-
graph or telephone communication
could be had with the farmhouses
in the country over which he had
disappeared.

Lands at Auburn.
It was 4:24 p. m. when Atwood
left Lyons. At 5:20 p. m. he sud-
denly appeared over Auburn and landed
there.

Fearful again of being lost since
he was away from his regular course
Atwood did not venture away from
Auburn until 6:45 p. m., when he as-
cended, uncertain as to his destina-
tion.

Then began another exciting
search for him, extending all the
way from Auburn to Utica. All tel-
e-graph wires were burdened with the
query:

"Where's Atwood?"
Ten thousand people at Utica
awaited his appearance until sun-
down. Syracuse also was kept anx-
ious until at 7:17 word came that he
had landed safely at Belle Island, five
miles west of Syracuse.

Atwood said that in yesterday's
wandering he had flown at least 75
miles, but could claim for his record
only the 40 miles between Lyons
and Belle Island. His total flying
time was 1 hour and 28 minutes.

His Most Exciting Time.
"It was the most exciting expe-
rience in the air I ever had," said At-
wood. "After ascending at Lyons, I
looked at the map and concluded I
could find my way to Auburn where
I knew a lot of people would be dis-
appointed if they did not see the
aeroplane. I had gone 10 miles, per-
haps, when away from the railroad
tracks I was completely at a loss to
know where Auburn was.

"There was not a sign of a road
or anything to indicate the direction.
I kept on going, sometimes rising to
a high altitude in the hope of seeing
the town from afar. The further I
went the more confused I became.
Soon my gasoline began to run low,
and I knew if I landed out there I
would be miles from a new supply.
"Finally I shot off in a tangent
southward and in a short time, to
my great joy, I beheld what I took
to be the buildings of the Auburn
penitentiary. A few minutes later
I landed there. The reason I did
not leave Auburn sooner was that
there were such crowds there without
sufficient police protection that I had
to fight the people back.

Forced to Land.
"I got into the air again as soon
as possible, determined to make
Utica without stopping. Just west
of Syracuse darkness overtook me,
and I had to land.

"Today I will disregard all sched-
ule landing places and will attempt
to fly as far as Albany, 163 miles,
by way of Syracuse and Utica."

After being picked up in the auto-
mobile where he landed last night,
Atwood went to the Onondaga Hotel
in this city for the night.

INDIAN WILL
ADDRESS THE
CATHOLIC CONV.

Columbus, Aug. 22.—The third
day of the tenth annual convention
of the American Federation of Cath-
olic Societies was opened at 7:30
o'clock this morning, when the dele-
gates marched in a body to St.
Mary's church and there paid honor
to the memory of the members who
died during the year.

The real work of the convention
is scheduled for today and the im-
portant topics before the convention
will be discussed. Socialism and the
divorce evil are taking much time.

Officers will be elected Wednesday
afternoon and the place for the next
gathering selected at that time.
Chief Red Willow, son of an In-
dian chief, will speak before the con-
vention tonight on Indian Missions.
He arrived here last night from
South Dakota, where he represents
3000 Indian Catholics.

DIEGEL'S SENTENCE AGAIN
POSTPONED--HE MAY NOW
TELL ALL HE KNOWS

Columbus, Aug. 22.—That Rodney
J. Diegel, senate sergeant at arms, has
promised to tell all he knows about
legislative corruption with a view of
getting clemency for himself is the in-
formation that comes from Attorney
General Hogan and Prosecutor Turner
today.

Diegel was in conference with Ho-
gan and Turner today and it is de-
clared that he has agreed to write out
between now and next Monday all he
knows about crooked deals between
members of the legislature and lobby-
ists. If after reading Diegel's confes-
sion Hogan and Turner decide that it
is the whole truth they will recom-
mend clemency for him. But other-
wise they will remain silent and al-
low the court to pass sentence. It is
said that Diegel this morning told
Hogan and Turner enough verbally to
convince them that his written confes-
sion will prove of great value to the
state in securing the conviction of

New and Startling Turn in Beattie
Trial Is Taken Today---
12 Jurors Secured
Yesterday.

Richmond, Va., Aug. 22.—A wit-
ness whose testimony breaks down
entirely the story of Paul Beattie,
upon which the commonwealth de-
pends to send Henry Clay Beattie Jr.
to the electric chair for the murder
of his wife, will change the plans
of the prosecution in the Beattie
trial.

R. F. Ellington, an engineer of
the Southern railroad, turned up with
the declaration that on the night
Mrs. Beattie was murdered he saw
Paul Beattie on the Belt Line tracks
within a mile of the place of the
killing and almost on the exact spot
where the gun, with which the mur-
der was committed, was found. If
this testimony is unshaken, it will to-
tally destroy the well planned nar-
rative of the members of Paul Beattie's
family that he was home in bed
on the night of the killing. Detect-
ives for the defense were confident
today that they could absolutely nul-
lify his alibi. With that much of
Beattie's story broken down, the de-
fense asserts that it will not be hard
to attack his reliability and utterly
destroy the effect of his tale of buy-
ing the gun for his cousin.

Chesterfield Courthouse, Va., Aug.
22.—The proceedings yesterday were
marked by quick action and before
court adjourned 12 jurors were se-
lected, but four of these will be chal-
lenged by the defense, and their places
will be filled from a special venire of
80 men summoned to appear Wednes-
day, to which day court adjourned.
Beattie, when arraigned, entered a
plea of not guilty.

Ten of the jurors selected are farm-
ers, one is a quarryman and another is
a contractor. The names of the jurors
are:

- N. W. Farley, quarryman, 37 years
old.
- R. H. Covington, 33 years old.
- John D. Dance, 34.
- E. L. Wilson, 38.
- A. L. Fetterolf, contractor, 34.
- Irving M. Bass, Jr., 30.
- V. W. Fuqua, 27.
- W. L. Burgess, 52.
- M. B. Purdie, 27.
- J. C. Condry, 53.
- W. J. Lundy, 50.
- M. C. Robinson, 44.

Beattie pleaded not guilty in a clear
and even voice.

All motions of the defense for post-
ponement were denied and motions to
quash the indictment overruled, so
that when the morning session was
adjourned the preliminaries had been
disposed of and seven prospective
jurors were in the box.

The afternoon session moved more
slowly. A second venire of 20 men
was exhausted after tedious question-
ing, but five more jurors, subject to
the four peremptory challenges of the
defense, were added to the seven se-
lected previously. Judge Walter A.
Watson then adjourned court, giving
the sheriff until Wednesday to assem-
ble the additional veniremen.

members of the legislature who are
alleged to be implicated in the bribery
scandals.

Columbus, O., Aug. 22.—Following a
conference with Prosecutor Turner
Judge Kinkadee again consented today
to further delay in sentencing Rodney
J. Diegel, recently convicted of aiding
and abetting certain senators in the
solicitation and acceptance of bribes.
Following the issuing of a capias for
Diegel Monday night it was expected
that he would be sentenced in court
this morning. After talking with the
prosecutor, however, the judge agreed
to extend the present term of court so
that it would end September 9, instead
of September 2. Diegel must now be
sentenced before September 9. It is
understood that the prosecutor urged
that the sentence be deferred in the
expectation that Diegel with a peniten-
tiary sentence staring him in the face
would consent to tell what he knows
of the alleged legislative bribery in
order to win clemency.

Terre Haute, Ind., Aug. 22.—The visitors took another game here yesterday by timely hitting. Terre Haute, connected with more safe hits than the Molders, but Billy kept them well scattered. The locals drew four passes to Newark's one, but in the pinches Riley was impossible. Twelve men died on bases when a little safe tap would have meant a score. Newark's six hits were coupled with errors and a few near sacrifices which pushed the men around the paths.

"Dummy" Kilm got three hits out of four times up. Loomis and Pattison took turns on the mound and the six singles garnered off their delivery was good for four tallies. The visitors took the lead in the sixth. Gray was switched to left field, where Gilbert had been playing. J. Parker went to right, and Craven covered the second sack. Pendry, back at his old position was the bright light in the fielding.

The six errors were all muffed in the infield, allowing the runners to take first. Parker dropped two easy ones, which is getting to be a rarity with the Newark short stop. Not a one of yesterday's hits went for extra bases.

DECIDED IN 19TH INNING

One of the novel things in baseball is a nineteen-inning game. Piqua turns on for a frame more than two ordinary games against Springfield yesterday before being finally outlaid by the Reapers. Piqua tied the score in the ninth, both teams scored in the twelfth and goose-eggs held off swing until the nineteenth when Springfield tallied. Johnson pitched the entire game for Springfield.

Carries Most Sand

Superior Portland Cement carries the most sand, because it is ground the finest. This makes it cost less than others sold at the same price. It is also lowest in magnesia—fraction of 1 per cent. This is why Superior concretes never crack or crumble. Build with it. It's a true Portland Cement. Write for free Superior Catechism No. 24. Then keep on insisting until your dealer supplies Superior.

HARPER REVERTS TO ST. LOUIS.

Cincinnati, Aug. 22.—The national baseball commission, in a decision promulgated yesterday, holds that title to Player Harper, who was released by the St. Louis American League club to the St. Louis City club of the Western League, reverts to St. Louis, because St. Louis City has failed to pay the purchase price of \$300, which had been agreed upon by the two clubs.

BRIEF SESSION OF COUNCIL ON MONDAY EVENING

Last night's meeting of the council was very brief and there was nothing of unusual interest. Joseph Stock was elected to fill the vacancy left by Phil Vogelmeier. Council also voted to erect the monument in the public square which was requested by the Daughters of Veterans. The street committee is to fix the location.

All the councilmen answered to roll call excepting Vogelmeier. His seat was declared vacant and Mr. Joseph Stock was elected to take his place, Vogelmeier having removed from the ward.

The street committee reported favorably on the resolution adopted to erect a monument or tablet in the court house yard containing Lincoln's Gettysburg address. It was voted that the street committee fix the location.

In regard to the petition of property owners for constructing a stone sidewalk on the west side of Hunt street, between Burt avenue and Hancock street, the committee reported favorably and recommended that the sidewalk be constructed.

In accordance with a motion made at the last meeting, that the street committee view Martha E. Taylor's addition to the city, as proposed, and report, the committee visited the addition and found it in the same shape as when visited on a former occasion, when certain improvements were suggested. When such improvements are made, the committee will report favorably.

The city engineer reported the completion of plans for the construction of a sidewalk on Cottage street, from Hudson avenue to Mt. Vernon road and on both sides of Linden avenue from West Main street to the north line of lot 51.

The sinking fund trustees had received a communication from the city auditor offering the \$60,000 of water works bonds, but on account of lack of funds they were unable to purchase.

A letter of thanks was received from the South Side for the work in raising the grades of streets and the tracks of railroad companies so as to secure the proper benefits of the South Side, and hoped council would show the same spirit in the necessary legislation for the abolishment of the grade crossings. The petition was received as filed.

A petition was presented, signed by 18 property owners, asking that council proceed in the necessary legislation to have a stone curb and gutter constructed on the east side of Linden avenue, from lot 50 1/2 to 50 1/3.

An ordinance was introduced to keep people from stealing water and from dumping refuse or otherwise polluting the stream above the dam. Penalty was attached for violation of same. It was passed under suspension of the rules.

A resolution was passed granting Wm. Vandenberg permission to erect a roof across the sidewalk in front of his building at East Main and Buena Vista streets, extending in front of and on the side along Buena Vista street, provided the present brick pillars were removed and replaced by iron posts.

The special committee appointed to investigate the furnishing of electricity for light and power by plant tasking for more time. They have taken the matter up with the superintendent of the plant at Columbus, which has been very successful in that regard.

In connection with the controversy between the Licking Light and Power Company and the director of public service, the committee met with the management and attorney, and Mr. Christian was present. The matter was discussed but no definite action was taken. As this matter comes in the public service department, it was decided that the director of public service make a report of the outcome of the same with the Licking Light and Power Co.

President Orr appointed Joseph Stock on the following committees: Street, County Relations and Public Service.

O. E. Hunt was present and thanked the council in behalf of the Daughters of Veterans for granting the tablet in the court house yard.

CENTRAL LEAGUE NOTES.
Wratton, the Zanesville infielder who was sold to Buffalo, is hitting down next to the pitcher. He has been annexing two and three bingles daily, however, and may be placed higher in the list before many days have rolled around. By the way, Bob Wells, last season catcher for the champion South Bend nine, is playing in the outfield for the Jersey City club. He muffed a fly ball on Thursday and the error cost him nine the game.

Infielder Kohl and probably Pitcher Sullivan will be sent by the Terre Haute club to the Michigan State League to finish the present season. The Grand Rapids management offered Catcher Scanlon for Infielder Kohl.

THREE WHEELING GAMES TRANSFERRED TO NEWARK; FIRST ONE WEDNESDAY

The series with Wheeling beginning tomorrow afternoon, has been transferred from that city to Wehrle Park. This was done by the directors after careful consideration. The condition of the finances of the local club makes it necessary to watch every little expense. The series has been transferred in order to save money for the club.

Twice before Wheeling series have been transferred and each time it has proven disastrous. It began with the injury to Parker's thumb and ended in the double disaster in the burning of the grandstand and the collapse of the bleachers. The managers of the club are hard-headed business men, with whom superstition doesn't go at all, and since careful figuring has shown that a saving can be made, the games have been transferred accordingly.

This gives the local fans a chance to see the team in action. Home games will be rare enough from now on, and it is thought that both the fans and club will benefit from the change. Go out and see the game.

A HAPPY HOME-COMING.

The husband who comes home from his daily toil, whether working for small or large pay, must appreciate the presence of a wife well groomed and restfully awaiting him, and children equally well groomed and showing every evidence of maternal care.

A woman does not need to be a slave to drudgery, but a happy home-builder. Hewitt's Easy Task soap is of the greatest help to this blessed condition, because it lessens the labor of keeping the home and all that pertains to it clean, wholesome and attractive. No friction to such a home. Five cents a cake.

CONGRESS ADJOURNED AT 3. P. M.

Washington, Aug. 22.—The senate adjourned at 3 o'clock this afternoon and the house at 3:02. The president arrived at the senate shortly after 2:30 and went immediately to the special room reserved for his accommodation. The special committee of the house and senate then gathered to inform him that congress had completed its work.

SECOND DAY OF INSTITUTE

The second day of the Licking County Institute convened this morning at 8:45 with 236 members registered. The "Round Table" discussions were especially interesting. The topics chosen were "What preparation should be made for teaching agriculture?" "Shall the Institute be paid?" "How do you teach current events in your school?" "Do the teachers feel their responsibility?"

The afternoon session was opened by the election of H. E. Emswiler of Utica, as secretary of the Ohio Teachers' Reading Circle, after which Prof. Erickson, O. S. U., lectured on "Agriculture." This part of the program was somewhat changed, owing to the impossibility of Prof. Graham to be present.

The lecture to be given this evening by Dr. Fess promises to be of a highly instructive nature. The program for Wednesday is as follows:

MORNING SESSION.
Music.
8:45—Devotional exercises, Rev. Jos. Bennett.
9:00—Round Table.
9:40—What We Sell and Where We Sell It—Dr. Gephart.
10:30—Intermission.
10:45—A Century Run in Literature, Dr. Green.

BLAMES BAD PALS FOR HIS FAILURE

New York, Aug. 22.—Elmer L. Rammons of Chicago, took his life yesterday by inhaling gas in the office of an asbestos company where he was employed.

A letter was found that had been written to George Rammons by Chester L. Hill, president of the asbestos company, in which he said he had given young Rammons a position and expressed the opinion that if he would give up his bad associates and attend to business he would succeed in his new undertaking. Geo. Rammons Sr., a Chicago business man, forwarded this to the younger man and added this foot note:

"For your sake, for your mother's and for my sake, try to make good on this job."

It's because nobody loves a fat man that his chances are slim.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medical forest plants. J. Pierpont Morgan has offered \$1,000,000 for the relics of an ancient throne in Austria.

Trees, for some reason, resolutely refuse to grow in the city of Thors-haven, the capital of the Faeroe Islands.

Accused of Stealing.
E. E. Chamberlain, of Clinton, Me., boldly accused Bucklen's Arnica Salve of stealing the sting from burns or scalds—the pain from sores of all kinds—the distress from boils or piles. "It robs cuts, corns, bruises, sprains and injuries of their terror," he says. "As a healing remedy its equal doesn't exist." Only 25c at F. D. Hall's.

Miss Mabel Forsythe, daughter of Mr. and Mrs. Samuel E. Forsythe, of 69 Ninth street, was quietly married to Mr. H. R. Couch of this city Saturday. Although Mr. and Mrs. Forsythe knew of their intention, but owing to the bride's youthfulness they were married in Newport, Ky.

The maid of honor at a recent wedding gave this pretty luncheon to the bride. Only the three maids and two other near friends were guests, making seven at the table. The decorations were white roses in a tall crystal vase, individual vases held a single white rose at each place, and between the door entering the dining room a white wedding bell was suspended. From the bottom of the bell four white satin ribbons floated, which were pulled by the four attendants, revealing four dainty parcels containing "something old, something new, something borrowed and something blue" to be worn by the little bride on her wedding day. Tiny satin slippers held

white heart-shaped bonbons and the cake contained a ring, thimble and coin. It was altogether a merry affair, full of charms and happy confidences such as only girls of a certain age indulge in when the geese are all swans, the bloom still on the peach and the world is viewed through rose-colored glasses.

The following invitations were issued today:

Miss Wright August 24
Four to six
Miss Stiekney

Misses Helena and Mary McManus, Nora Colopy and Helen Kelley of Steubenville, Messrs. James Schaller, Fred Cross and Leo Conland of Newark were guests at dinner at the home of William Quinlan Sunday.—Coshon-ton Daily Age.

Miss Harriett Lake entertained with a six o'clock dinner Saturday evening

at her home in Clinton street, complimenting her guest, Miss Helen Rhoads of Marietta. The evening was pleasantly spent with music and out-door games.

The seventh annual Wright reunion was held at the home of Emory R. Wright, August 16. There were seventy-eight present. A good dinner was served and relished by all. An interesting program was given. The officers elected for the coming year are as follows:

President, Maurice Wright.
Vice president, William Larimore.
Secretary and treasurer, Sylvia Wright.

Program committee, Walter Wright, Lola Wright and Abbie Lauderbaugh. The next Wright reunion will be held at Charles Wright's, near Braddock, O., on the third Wednesday of August, 1912.

The Lynn and Caughenbaugh reunion was held August 16 in the grove of Mr. George Lynn, five miles south-east of Thornville. The day was pleasantly spent in music, short talks, baseball, and the reading of a will 80 years old. A sumptuous dinner was served to about 160 guests. Those in attendance from Newark were E. S. Swingle and Glenn Berry.

CADA—McLARNAN.
Mr. Joseph E. Cada and Miss Laura E. McLarnan, from north of Granville, were united in marriage Tuesday morning in the Baptist parsonage, 105 North Fourth street by Rev. Jos. A. Bennett. After a trip to Denver and other places of a month or more, they will settle on Burg street, north of Granville.

Liver and Bacon. Have the liver cut in thin slices, cover with boiling water for a moment or two, then drain and dry. Cover the bottom of the pan with thin slices of fat bacon and toast at the side of the fire where the fat will slowly try out, pouring it off once or twice, until the pan is fairly colored. Transfer it to a hot dish and keep warm. Dust each slice of liver with salt, pepper and flour, put the pan over the hotter part of the fire and quickly cook the meat; the slices should be done through but not hard. Place them in the dish, arrange the bacon round them and serve. If a gravy is desired sift into the hot pan sufficient dry flour to absorb the fat, stir until brown and add gradually sufficient boiling water to make a moderately thick gravy. Season, boil for a moment and pour round the liver.

Veal Hash. Free a piece of cold veal from bones and fat and chop fine. For one pint of the minced meat allow one-half of a teaspoonful of onion juice, one scant teaspoonful of salt, one-third of a teaspoonful of paprika, one teaspoonful of Worcestershire and one tablespoonful of tomato catsup. Melt one tablespoonful of sweet dripping in a frying pan, moisten the meat with a little good gravy, add the seasonings and spread in the pan. Spread over the top one teaspoonful of the dripping and draw back where it will cook slowly but not sloppily. Have ready a number of thin slices of toast on a heated platter and a neatly poached egg for each person. Heap the hash on the toast and garnish with the eggs and a very little finely chopped parsley.

Brain food is something a man takes to feed his vanity.

TO OWNERS OF AUTOMOBILES

The Newark Board of Review respectfully calls to the attention of all owners of automobiles that his board is mailing a letter to each of said owners of automobiles that this board will enable us to place a fair value on every machine in the city. We note by the assessors returns that a mere nominal value has been placed on them. We, as a Board, believe that this class of property depreciates rapidly and will be satisfied with a fair market value, but last year your machines were taxed at the rate of about 26 mills. You can thus list them this year 1-2 times greater than last year and still pay no more taxes. We trust you will aid us in arriving at a fair value on this class of personal property and believe you will agree with us that our appeal to you is fair.

Respectfully, THE BOARD OF REVIEW.

HEALTH AND BEAUTY HINTS

BY MRS. MA E MARTIN.

Mrs. C. A.: You are ruining your hair using soap for shampoo purposes. The alkali dries out the scalp and causes dandruff, and dull, lifeless, greasy hair. For your case, I know of nothing better than a plain canthorin shampoo. This makes an abundance of rich, penetrating lather that thoroughly cleanses and invigorates. You will find on using this that the hair dries evenly and quickly and takes on a rich gloss and softness. You can get canthorin at the drug store, and a teaspoonful dissolved in a cup of hot water is enough for a good shampoo.

Iva: It is distressing to have shiny, muddy skin, but that can be corrected if you dissolve four ounces suar-mex in one-half pint hot water and add two teaspoonfuls glycerine. When cold apply to the skin and rub lightly until dry. A few times using this cleanses the skin of impurities and banishes freckles and tan. You will find this better than powder, as it is invisible when on and does not rub off or spot from perspiration.

Do not worry about the fuzz on your chin. To rid the skin of the objectionable growth, get an ounce of cold water and add one ounce of glycerine. Whisk the mixture over your face or grow tired, use an eye-cream, made by dissolving an ounce of crystals in a pint of cold water. A few drops in each eye twice daily quickly relieves the smart or ache and aside from strengthening the eyes, gives to them a remarkable brilliancy and sparkle.

Ada G.: Your dull, streaky hair can be made bright and rich in shade if you

make up and use this excellent hair and scalp tonic. Use a half-pint alcohol and a half-pint water, then pour in one ounce quinine. Massage a little into the scalp two or three times a week for a while and you will find dandruff or oiliness disappears and the hair will grow long and silky and be easy to do up.

Maudie B.: If you want health and strength you must keep the blood free of poisonous accumulations, and serious results may follow. Make up and take this tonic: Dissolve an ounce karside in a half-pint alcohol, then stir in one-half cupful sugar and hot water to make a full quart. Taking a tablespoonful of this mixture before meals rids the system of impurities, rebuilds waste tissue and makes you well and strong. You will find this karside tonic for clearing the skin of pimples and sallowness.

Mary: Large pores can be reduced and the skin cleared of local impurities if you use my almond cream-jelly. This is inexpensive and should be on every woman's dresser: To a half-pint of cold water add an ounce almond oil and two teaspoonfuls glycerine. Let stand several hours before using. Used freely, it works wonders with the skin, and no matter how sallow or unnatural it may have been, after a time while the skin grows soft and beautiful. Wrinkles and fine lines vanish as if by magic and hollows soon round out when ever almost cream-jelly is used.

Madge: It is an easy matter to regain your former weight without dieting or indulging in violent exercise if you employ the parnotis treatment, which is inexpensive and easy to prepare. Get four ounces parnotis and dissolve in a pint and a half of hot water. Strain when cool and take a tablespoonful before meals. Parnotis is quite harmless and its use will gradually build up a fine figure without leaving the skin wrinkled or flabby.

STRALS, SELLS, STEALS AGAIN.

Akron, Aug. 22.—John Smith, alias John Bando, July 11 stole a valuable horse from the barn of H. S. Thompson, near Hudson, drove ten miles and sold the animal to Harry Funk, Springfield Center. Last night Smith stole the animal, for which he had received \$75, and made his escape, after a hot pursuit by a farmhand at the Funk place. The sheriff with a warrant today traced Smith as far as Northfield.

Akron, Aug. 22.—Matthew Borch, aged 27, of Cleveland, was instantly killed yesterday while walking along the Pennsylvania tracks at Hudson, being struck by the locomotive of a passenger train. INCREASED TAX VALUATIONS OF OHIO BANKS FOR 1911

The capital stock of all Ohio banks has been appraised for an aggregate of \$173,703,237, an increase of \$91,461,362 more than it was last year, according to figures announced by the State Tax Commission.

In spite of this enormous increase amounting to more than 100 per cent the members of the Tax Commission declare that banks will pay less money in taxes than they have ever done before, and that they will pay a far smaller proportion of the total cost of government.

Judge R. M. Dittie, chairman of the State Tax Commission, said that statistics prove that the banks of the state have always borne a far greater proportion of the cost of government than any other single class of institutions, and in support of this statement cites the fact that railroads, traction lines, electric lighting and gas companies, and almost every other form of large corporation had to be increased from 3 to 10 times before they could be placed on the duplicate at anything like their real valuation, while the banks were only a little more than doubled.

The appraisements for the large counties are:

	1911	1910	Increase
Cuyahoga	\$36,283,880	\$15,390,510	\$20,893,370
Franklin	9,629,400	3,330,250	6,299,150
Hamilton	37,371,000	15,110,410	22,260,590
Lucas	11,976,170	5,609,110	6,367,060
Mahoning	6,570,310	2,837,920	3,732,390
Montgomery	5,361,625	3,035,810	2,325,815
Stark	4,052,115	1,873,610	2,178,505

This announcement should relieve those farmers and small home owners who were alarmed last spring when their property valuations were increased from 25 to 40 per cent. They feared the big corporations and personal property owners would be again favored with small appraisements and that their tax burden would be increased. A demonstration that the small property owner would be benefited by the low rate law and the property appraisements made under it was a long time in coming, but the announcement of bank stock appraisal and the amount of taxes the holders of it will pay, are indubitable proof that better times are ahead for the Ohio man of moderate means and the property owners who have borne more than their just share of the tax burden.

It is easy to explain why. Farmers, small home owners and holders of bank stock undoubtedly have been paying more taxes in proportion to their property than the other classes of property owners. Farmers and home owners have had their property valuations increased on an average of from 25 per cent to 40 per cent; bank stock has been doubled, while almost all the other corporate property has been increased 3 to 10 times.

It is self evident that the corporations which have been dodging taxes will be the only class of property owners that will pay more under the one per cent tax rate law for the additions to their property are greatest. The people who have been paying more than their share will contribute less, for their property valuations were not increased so much.

THE ISSUE TAFT HAS RAISED FOR HIS OWN DEFEAT

"The President has raised an issue which will raise with unabated fury until the close of the polls in November, 1912."

When Speaker Champ Clark threw down this challenge in what is now regarded as one of the most brilliant and militant speeches of his entire career, it meant not only that the Democratic fight for lower cost of living was to be one to a finish, but that Champ Clark himself was the man best qualified to lead that fight.

Republicans as well as Democrats apparently realized this, as was evidenced by the fact that when the speaker's name was mentioned in connection with the presidency, the big Missourian was cheered to the echo.

To those in the galleries, too, there was a significant meaning to this wild demonstration; it meant that Champ Clark of Missouri, who started life as a poor barefoot country boy plowing corn on a rocky hillside in Kentucky, had entered on the last log of a journey to the White House. And to the ears of Clark's friends in the crowded chamber the din of applause also sounded sweet, for to them it meant recognition at last of their contention that Champ Clark has become a large figure on the Democratic horizon.

"It makes me weary," thundered the Speaker, directly challenging the leaders on the Republican side, "to hear people talk about somebody wanting to destroy the industries and prosperity of this land. It is false. No sane man wants to injure any legitimate industry in this country. That is what I have contended for always, and especially since we carried the House and had the responsibility placed upon us. It is our country as well as yours; our children must live here as well as yours; we have as great a stake in the prosperity of the republic as you have, and in the language of Tiny Tim, 'God bless us every one.'"

"Another thing, they say we are playing politics. Whenever any man stands up and attempts to do anything for the benefit of the great masses of the people, he is denounced by the 'interests' as a demagogue, and is charged with playing politics. But to stand up and advocate the cause of the 'interests' is the highest evidence of statesmanship. As far as I am individually concerned, I sprang from the loins of the common people, God bless them, and I am one of them. I labored with my hands in my youth, and would do it again tomorrow if I had to do so; and I unhesitatingly take my stand with the consumers of the land as against the interests."

"The Globe-Democrat said that I had come around to a tariff on wool because I heard the bleating of 134,000 sheep in my district. I tell you what I did hear. I heard the cry of 93,000,000 American citizens for cheaper and better clothing. The great desire of my heart is to give them some relief from their burden of taxation which they have born for 101 these many years."

"We most cheerfully welcome the issue. We will meet the President and his stand-pat cohorts at the polls in 1912!" (Loud and prolonged cheering on the Democratic side.)

SIGNALS OF DISTRESS

Newark People Should Know How to Read and Heed Them.

Sick kidneys give many signals of distress. The secretions are dark, contain a sediment. Passages are frequent, scanty, painful. Backache is constant, day and night. Headaches and dizzy spells are frequent. The weakened kidneys need quick help. Don't delay! Use a special kidney remedy. Doan's Kidney Pills are for sick kidneys, backache and urinary disorders. Newark evidence proves this statement.

Mrs. W. Manville, 50 North Fourth St., Newark, O., says: "About three years ago I used Doan's Kidney Pills for lame back and weak kidneys and they proved very effective in giving me relief. I have recommended this remedy to many of my friends and it has always given satisfactory results."

COMMUNICATED

Editor of the Advocate: The committee which has charge of raising funds to uniform and equip the company of "Old Guards" recently organized in this city, have been hard at work. Many of our citizens have responded liberally, for which the veterans who comprise the company are very thankful. On the rounds of the committee the question has been asked repeatedly: "What is the object of the organization?" "What benefit to Newark," and many other questions have been put to the committee. In order to make plain the purposes of our organization and to answer every question so that all may know, I will first state the organization is a military one, and will be handsomely uniformed, and equipped with rifles and accoutrements such as the boys were in the war of the rebellion. The Newark company is company B of a battalion now being organized in the state. The "Old Guard" is composed of veterans of the Civil war, banded together for the purpose of promoting patriotism and sociability not only among ourselves, but to teach (by our example) the rising generation, the love of country and loyalty to the flag.

That your many readers may have a better understanding of what I stand for, I will here insert the obligation which is taken by every man who joins the company:

Obligation of the "Old Guard": "I, do solemnly obligate myself never to wrong a comrade by word or deed; that I will at all times conduct myself in such manner as to merit the respect and good will of all; that I will on all occasions defend the Union of the United States of America; honor its Constitution and obey the laws of the land; That I will, when requested by the authorities of the city, turn out with the company for the purpose of assisting in the enforcement of law and order. Finally, that I will protect the flag of our country as the emblem of liberty, equal rights and national unity.

"This obligation I take without mental reservation in me whatever, and I solemnly obligate myself

to keep it inviolate. I call upon God and my comrades to bear witness to the same."

The company has accepted an invitation to turn out in the Labor Day parade, but we are still short of funds to purchase uniforms. The committee will make one more effort to secure the necessary amount and hope the good people of Newark will respond. The company has several invitations to visit other cities and if it can go fully uniformed with its banner prominently on which will be in gold letters the words Newark, Ohio, it will be an advertisement of our beautiful city. A drum corps has also been organized and will be the most handsomely uniformed corps in the state. We ask that you stand by us now, and if the time ever comes when Newark needs the assistance of an armed company you will find the "Old Guard" will do its duty.

The time in which to get our uniforms is short if we turn out on Labor Day, so if any of our good people who wish to assist us will send checks or money to Matt. Bausch, Poplar avenue, or Rufus Putnam, 185 West Locust street, this week, the committee and company will be very thankful.

COMMITTEE.

HOW TO BANISH WRINKLES QUICKLY.

(From Guide to Beauty.)
If the average woman only knew it, it is not so difficult to preserve the youthful contour and velvety smoothness of complexion. Every woman hates to see her face wrinkled or aged, and practically every one has experimented with some sort of patent remedy in the effort either to remove such conditions or ward it off. As a matter of fact, the most effective remedy in the world is one that any woman can easily make up herself at home, in a moment's time. Let her take one ounce of pure powdered saxatile, which she can purchase at any drug store, and dissolve it in a half pint of witch hazel. Apply this refreshing solution to the face every day. The results are surprising and instantaneous. Even after the very first application a marked improvement is apparent. The wrinkles are less in evidence and the face has a comfortable, snug feeling of firmness that is most delightful.

SCIENCE MAKING LIFE EASY.
The small things in life are usually the most important—for example, a cake of poor soap may not only spoil the week's wash, and the temper of the housekeeper, but ruin valuable fabrics.

For twenty-five years we have spent a large sum of money educating people as to the soap situation, and it has paid us so far. We will continue the good health campaign and invite you most cordially to give Hewitt's Easy Task Soap a trial, giving you the opportunity to do so on the most liberal basis we can offer. Buy two cakes from your grocer for ten cents, and if the first does not please you, return the other and get your money back. Is this good enough?

YOU NEED THAT VACATION.
A. D. & C. Coast Line Trip to Mackinac is Most Delightful Now.
You see it's like this—you've hammered away at your work all season and now you feel the need of that vacation which you've been denying yourself. The D. & C. line offers the best transportation facilities to Mackinac and the North Country, where every inch of scenery is interesting and where every little lake contains the fish that bite.

Send for the D. & C. pamphlet and take the next steamer. Detroit & Cleveland Navigation Co., Detroit, Mich.

PRES. TAFT VETOES THE COTTON BILL

Washington, Aug. 22.—In his message vetoing the cotton bill sent to congress this afternoon President Taft scored the method of the house and senate in adopting the measure. He declared that the bill and its amendments were passed without consideration of facts concerning industries involved and that the amendments affecting the chemical, iron and steel industries were not even considered in committee.

"My objection to the cotton schedule," the President said, "is that it was adopted without an investigation or information of a satisfactory character as to the effect it would have upon an industry of this country in which the capital invested in 1910 was \$821,000,000 and which effects at least 1,200,000 people and involves wages to the amount of \$146,000,000."

A FOUR PLY MONOPOLY

One of the first facts developed by the Stanley steel investigating committee was that the directors of the steel trust actually dominated the boards of directors of nearly all the important railroads of the country. Then it came to light that the same ruling spirits of the steel trust cooperated with and practically dominated Standard Oil. And now it develops that four of the six directors of the harvester trust are also directors of the steel trust. In other words, the steel trust, the railroads, the harvester trust, and Standard Oil, (all star contributors to Republican campaign funds) are dominated by the same handful of men. And these men, in turn, take orders from one man, Mr. J. P. Morgan.

The great labor strikes in England are of a nature that show revolutions of conditions pertaining to the masses entirely different from any previous period of the country's history. The settlement of the trouble required the best efforts of Great Britain's leading statesmen. What effect it will have on the future of laboring people is a subject of conjecture and not easy to foresee.

ADMINISTRATION STENOGRAPHERS

Here is a story of two Taft administration stenographers which shows how hard it is to work for the government these days and remain honest.

F. M. Kerby, stenographer to the late Secretary of the Interior Ballinger, exploded the whole Ballinger defense by bringing to light the "Lawler memorandum." Kerby wrote this memorandum, and knew, therefore, that President Taft's letter exonerating Ballinger was ante dated and a frame up to clear the secretary. And because he revealed information which came to him in his confidential capacity as stenographer, Ballinger called him "unworthy" and discharged him.

Now contrast this with the case of Miss Carrie M. Davis, stenographer to

WHAT ATHERTON'S ELECTION MEANS.

The election of Herbert Atherton as mayor of Newark next November would be viewed by the entire world as an endorsement by the people of this city of the Etherington lynching. No other construction could possibly be placed upon it. Mr. Atherton's nomination by the Democratic party would be viewed in practically the same light.

As has been frequently pointed out in these columns, the eyes of the entire newspaper world are upon Newark and it is up to the people of the city to say whether or not they desire to be pictured as approving the act of the mob on July 8, 1910. In this connection read the following from the editorial page of the Cleveland Plain Dealer of Sunday:

A community cannot be justly condemned for an outrage committed by some small fraction of its citizens, but if it fails instantly to rally for the punishment of the guilty it may fairly be adjudged little if any better than the immediate perpetrators of the crime. That is the offense now charged to Coatesville, the Pennsylvania village and the scene of the shameful lynching of a bed-ridden negro one week ago Sunday night.

In effect, that is the accusation which the people of Newark, in this state, will invite if they acquiesce in the desire of certain ex-officials to regain political power at the coming election. Unless Newark was purified by the events connected with the lynching of Etherington, it deserves the condemnation of the country.

The "good citizens" of Coatesville, instead of rolling up their sleeves and demanding immediately that the slayers of a negro be punished for their crime, adopted the narrow view that the best way to encourage the world to forget the crime was to let the criminals go unscathed. They were willing to participate in the lynching as accessories after the fact, in order not to advertise the shocking affair further. It is an old story merely re-told in new setting.

It took nearly a week for Coatesville to wake up to its responsibility. Arrests have now been made, but there is noticeable lack of enthusiasm in the clean-up. Those under arrest are held merely as witnesses. In all probability even this ineffective formality would have been dispensed with, except for the pressure of outside public resentment and the delayed suggestion of the governor of the state.

Coatesville is on trial in Pennsylvania, as Newark is in this state, rather than the criminals who cruelly put to death their fellow creatures without giving them the benefit of a trial. There is this difference, however, that Newark stepped forward, our law threatens to reverse its action, while Coatesville hesitates to take the first step. It is for Newark to say whether she will voluntarily place herself in the class which the Pennsylvania town seems content to occupy.

It is plain to see from the above what the universal verdict of the outside world will be in case the lynching tragedy shall be sanctioned either at the primaries on September 5 or the general election on November 7. It proves the absolute truthfulness of every statement that the Advocate has made regarding the damaging notoriety that would again afflict our city by the Atherton nomination or election.

It is not likely that the Taft administration will have the nerve to carry out the plot to drive Dr. Harvey Wiley from the government service because he stands for pure food.

It doesn't do a hungry man much good to swallow his pride.

THE BOOK AGENT.

He comes when I am sick at heart from toiling in the busy mart, when, worn by privations and woes, my soul is longing for repose. He comes, this weird and windy chap, and lays a volume in my lap, a tome that weighs a hundred, net, and says: "This beats them all, you bet! You'll never see its like again - 'The Lives of Fifty Famous Men'." Now here's a sketch of ancient sage, and when you turn to 'other page, you'll find a map of Dr. Cook there never was so smooth a book!" And as his words on me descend, I know he'll get me in the end. He'll beat me by his sinful art, and wear me out and break my heart. And if, to shield my hearth and home, I brain him with his weighty tome, the janitor of the law will lead me to a couch of straw and clanking chains in prison cell - and I would ask if this is well? Why is it wrong to shed the gore of agents when they seek your door, and talk until your bosom bleeds, and sell you books that no one reads? I slew an agent long ago; with fervid zeal I laid him low, and I was fined some fifteen bones, and worked the fine out breaking stones.

WHITE'S BOND IS FORFEITED IN COLUMBUS

Robert White of Newark, proprietor of the "Blue Goose" at Buckeye Lake, arrested for attempting to bribe a witness, did not appear in police court Monday morning. Attorney Connor, representing him, explained that White's trial on a charge of illegal sale of liquor was on Monday in Newark. Judge Osborn ordered White in and his bond forfeited, but the bond forfeiture will be set aside as soon as Mr. Connor files an affidavit setting forth the reason for White's absence. The case against him here will probably be tried next Friday.

BUTTER KRUST

MORE CASES DISPOSED OF IN COURT TODAY

The remainder of the cases against persons charged with violation of the liquor laws in Licking county were called in the Common Pleas court Tuesday morning and disposed of as follows by Judge Seward:

In the case of Dan Sullivan, there were three different charges. The first one was nollied by the state. In the second case Sullivan pleaded guilty and was fined \$200 and the costs. He also entered a plea of guilty in the third case and was fined \$500 and the costs. In the first case there was a suspension of \$100 and \$200 in the second.

The four cases against Verne Patterson and the three cases against William Bergen and one against Charles Henry were continued until Friday morning.

YOUR GRAY HAIRS QUICKLY VANISH

A Harmless Remedy, Made from Garden Sage, Restores Color to Gray Hair.

A feeling of sadness accompanies the discovery of the first gray hairs, which, unfortunately, are looked upon as heralds of advancing age. Gray hairs, however, are not always an indication of advancing age, for many people have gray hairs quite early in life. Of course, it is unnatural, and indicates that there is something wrong with the individual, and that Nature needs assistance in correcting the trouble. The same is true of hair that is constantly falling out and becoming thinner every day. If everything is right with Nature, the hair, even in comparatively elderly people, should be long, thick and glossy, without even a streak of gray.

The ideal assistant to Nature in restoring and preserving the hair is Wyeth's Sage and Sulphur Hair Remedy, a clean and wholesome dressing for daily use. It not only removes dandruff, but strengthens weak, thin hair and promotes its growth. A few applications will restore faded or gray hair to its natural color.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

AMUSEMENTS

The Billy Allen Musical Comedy company opened a week's engagement at the Auditorium Monday night with a very pleasing performance of "The King of Kokomo." The company is composed of good singers and clever comedians and the audience last night was highly pleased with the production. Tonight the company plays "Miss Idlewild," an excellent musical comedy. One of the features of this play is the "Dancing Pippins," a team of six pretty girls doing a clever dancing stunt.

RENEWING COMPLEXIONS BY ABSORPTION.

If your complexion is marred with blotches, moth patches, pimples or freckles, it's useless to putter with powders and paints, lotions, creams and things, in an effort to get rid of the trouble. Unless you have some ability as an artist, you'll mar your appearance still more.

The new and rational way is to take off the complexion itself, with all its offensive marks. Just get an ounce of pure mecolized wax at the druggist's and use at night same as cold cream. Remove the next morning with water and soap, following with dash of cold water. The mecolized wax absorbs the half-dead scarf skin in flaky particles, so gradually no one guesses you're treating your face—unless it be by the result, which is truly wonderful. There's nothing like it for restoring a natural, healthy and beautiful complexion.—Aunt Sally.

NEGRO RESISTS 200 VOLTS IN ELECTRIC CHAIR

Eddyville, Ky., Aug. 22. — Oliver Locke, a Louisville negro, condemned to death for the murder of his wife, revived in the electric chair after 2000 volts had been shot through his body in the state prison here today.

He did not die until several minutes after he had been returned to the chair and 2500 volts had been applied.

When the first current was turned on Locke gave a tremendous convulsion and broke the straps binding him to the chair, his body falling on the floor.

Physicians who examined him declared he was reviving, and the other current was necessary.

Attack Like Tigers.

In fighting to keep the blood pure the white corpuscles attack disease germs like tigers. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt rheum and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Buddahn of Tracy, Calif., "I have ever found." They make rich, red blood, strong nerves and build up your health. Try them. 50c. at F. D. Hall's.

LEGGE REUNION.

The Legge family reunion, held at Moundbuilders Park, Aug. 16, was a success in every particular, although it was the first reunion this well known family has held. By 11 o'clock 106 members had responded to the invitation and friends met who had not seen each other for years. All came with well filled baskets and a sumptuous dinner was served at 12:30. Then the company was called to order by Rev. C. W. Caldwell of Chicago, who acted as chairman, and officers were elected to take charge of the organization the coming year. The officers are: President, Webster Caldwell, Mt. Perry, O.; vice president Mrs. D. W. Matticks, Newark; honorary president, Lewis Legge, Newark; secretary, Lewis Legge, Newark; corresponding secretary, G. A. Elliott, Zanesville; executive board, Mrs. J. W. Hornbush, Newark; Miss Myrtle Moore, Nashport, O.; Wm. Legge, Columbus O.; Mrs. May Elliott, Zanesville, O. It was decided to hold the next meeting Aug. 15, 1912.

Lewis Legge and Mrs. Sarah Cooksie of East Newark are the only survivors of the original Burr Harrison Legge family, which moved here from Loudon county, Virginia, in 1824, and located near Perryton, in Licking county.

Out of town guests who attended were as follows:

Mr. and Mrs. Will Corbin, L. Corbin, J. W. Gale and wife, Floyd Gale, Herbert Gale, Mrs. Acenith Bell, Mrs. Rena Jones, G. A. Elliott and wife, of Zanesville; J. W. Caldwell, wife and children, of Adams Mills; J. W. Evans and wife, of Coshocton; Wm. T. Evans and wife, Wm. Holman and wife, of Cooperdale, O.; Rev. C. W. Caldwell and wife, of Chicago; Mrs. Geo. H. Totten, of Dayton, Ky.; Mrs. Thomas Holman and sons, of Canton, O.; Darwin Palmer, Portland, Ore.; Wm. Legge and wife, Oliver Orr and wife, of Columbus; Mrs. C. B. Cullison, of Hanover; Mrs. George Mossgrove and daughter, Mrs. Kate Weber, of Steubenville; L. N. Shupe and wife, of Columbus; Mrs. Becky Curtis, Miss Lizzie Moore, Miss Myrtle Moore, Sam Moore, James Moore, Frank McCune and wife, of Nashport, O.; A. W. Caldwell, wife and children, of Mt. Perry, O.

Daddy's Bedtime Story

Baboon Daddy
Braved Guns to
Get His Baby

HOW would you like to hear tonight a story about a baboon daddy, children?" asked daddy.

"And he's always calling us little monkeys, Jack," whispered Evelyn.

"That's another one for you, young lady," laughed daddy. "Next time you say to me, 'Ice cream soda, daddy,' you'll see what you'll get."

"I know," said Jack wisely.

"What?" asked daddy.

"Ice cream soda," answered Jack.

"Oh, dear," sighed daddy: "there's no use my trying to do anything with you two. One laughs at me and the other says boldly that I'm afraid to carry out my threats. I'll just tell you the story quick and then go down to the porch to mother. She never makes fun of me."

"Most monkeys are not very brave," he began, "but baboons are as fearless as anything that lives. They will fight lions or tigers or big snakes and even crocodiles, and only man with his rifle can make them afraid."

"But, as I will show you, they lose even fear of him when danger threatens their babies. One of the leaders of the great expeditions that go to Africa every year to get curiosities for menageries all over the world came one afternoon upon a whole colony of baboons resting in the shade of a group of trees at the bottom of a big hill. With him he had a pack of dogs who were used to capturing all sorts of animals, but they didn't scare the baboons."

"The father baboons came down on the ground and lined up just like soldiers in front of the dogs, and the mother baboons, with their little ones, scampered up the hill to safety. The hunters didn't want to shoot because dead animals are no good for menageries, and they were going away when they heard a funny squeak, and there was a poor little baboon that had been left behind."

"The hunters uttered a shout, for that was exactly what they wanted, and they urged on the dogs to frighten the fathers away, but none moved but one. He went to where the baby was and took it to its mother."

"And he was so grand in his manner and so fearless of any harm, although he must have been old enough and wise enough to know that a gun was, that not a man in the party had the heart to fire a shot, although a baby baboon is worth hundreds of dollars. And so the hunting party called in the dogs and went back to camp, and some baboon mother cuddled that baby in her arms all night."

Baby's Voice

Every woman's heart responds to the charm and sweetness of a baby's voice, because nature intended her for motherhood. But even the loving nature of a mother shrinks from the ordeal because such a time is regarded as a period of suffering and danger. Women who use Mother's Friend are saved much discomfort and suffering, and their systems, being thoroughly prepared by this great remedy, are in a healthy condition to meet the time with the least possible suffering and danger. Mother's Friend is recommended only for the relief and comfort of expectant mothers; it is in no sense a remedy for various ills, but its many years of success, and the thousands of endorsements received from women who have used it are a guarantee of the benefit to be derived from its use. This remedy does not accomplish wonders but simply assists nature to perfect its work. Mother's Friend allays nausea, prevents caking of the breasts, and in every way contributes to strong, healthy motherhood. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers.

Too Many Books.

As some gormands abuse their stomachs with too much eating, so some gormands for mental food abuse their brains with too much reading. They stuff their minds with piles of indigestible literary food. They read and read and read until their brains absolutely refuse to do any independent thinking. Their brains become like a great sponge filled with water, sodden and heavy and inactive. I protest against the lightning rapidity with which men and women gallop through their books. Master those books. Read them over and over again and make them integral parts of yourselves.—Rev. Frank De Witt Talmage.

DOCTORS FAILED TO HELP HER

Cured by Lydia E. Pinkham's Vegetable Compound

Pound, Wis.—"I am glad to announce that I have been cured of dyspepsia and female troubles by your medicine. I had been troubled with both for fourteen years and consulted different doctors, but failed to get any relief. After using Lydia E. Pinkham's Vegetable Compound and Blood Purifier I can say I am a well woman."

I can't find words to express my thanks for the good your medicine has done me. You may publish this if you wish."

—Mrs. HERMAN SIETII, Pound, Wis.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

DELEGATES FLOCK INTO GRANVILLE

TO ATTEND SESSIONS OF Y. W. C. A. CONFERENCE DURING NEXT TEN DAYS.

Knights of Pythias Will Hold Picnic at Cat Run—Notes from College Town of Granville.

Granville, Aug. 22.—The annual conference of the Young Women's Christian Association of the district composed of the states of Ohio, Indiana, Pennsylvania and West Virginia, which is now assembling in Granville for a ten days' session, promises to be not only the largest session, but the most interesting and profitable of any held in the history of the association.

All indications are that the attendance at this conference will be a record breaker, and preparations for the entertainment of a large number of delegates have been made by the committees having the matter in charge.

The office of the secretary and headquarters, which have been established in Burton Hall, were opened Monday, and since Monday night the secretary has been one of the busiest of persons, looking after the delegates on their arrival, seeing that they are properly registered and made comfortable. All the dormitories, as has been stated, have been placed at the disposal of the visitors, while the dining room of Shepardon has been thrown open and meals will be served here during the conference.

The program for the conference bears its own evidence of strength from top to bottom. It is hard to conceive of a better selection of talent, and the committees in charge have exercised much wisdom as well as enterprise in bringing together on one platform so much recognized ability. Not only the speakers, but the subjects are sufficient to secure capacity crowds at each number, both day and night. Several of the most widely known speakers of the country will appear before the audiences. The whole program is a combination of instruction and entertainment that has never before been presented in Granville.

During the past twenty-four hours delegations have been pouring into the village, every car on the interurban and steam roads bringing in visitors. Active and accommodating messenger boys were on hand on the arrival of every car to receive and escort the delegates to their destination.

All day Tuesday the office of the secretary was crowded with young women from the four states comprising the district, Ohio, Pennsylvania, West Virginia and Indiana, registering and making arrangements to get comfortably installed before the opening session of the conference.

The Knights of Pythias always make a success of whatever they undertake, and the big picnic to be held by the members of Altamaha Lodge, Knights of Pythias, and the ladies of Arbutus Temple of Pythian Sisters at Cat Run Thursday of this week, promises to eclipse any day of fun and frolic hitherto in the history of these organizations. The members of both lodges will be taken out to Cat Run at an early hour in the morning and there will be all kinds of sports during the day. There will be an impromptu base ball game between the members, played near by, and an ambulance will be in attendance to take care of those who laugh themselves to death. One of the biggest turnouts in the history of the lodge is expected as nearly all the members have signified their desire to get in on the fun and frolic. The principal event of the day will be the big dinner, which will be served on the green at the noon hour.

There appears to be an inclination in some quarters to forego the annual attack of hay fever and save the money necessitated by trips to the lakes.

TO BUILD 16 INCH MAIN FROM HOMER

The Ohio Fuel Supply Company has started work on its extension of a 16-inch main from the Homer compressor station to the new Ashland county field and has the pipe purchased and on the ground and about 800 men at work in construction of the new line.

The line will be built from the north field, where the company now has a 16-inch main into the Ashland field. From there a belt line of 30-inch and 12-inch mains will be built around the field and tied into the new 16-inch main. This will insure a plentiful supply of gas for all consumers of the company, as in addition to the new main, the company has a 20-inch main from West Virginia, the 18-inch main from the Homer station to Cincinnati and the other mains running from both the north and south fields. Officers of the company say that they expect no trouble this winter, no matter what demand is made upon the supply by their consumers.

In the fields of northwestern Ohio operations continue in a mild manner, with a few average producers completed each week. Greselchen & Reynolds secured an exceptionally good producer in Jennings township, Van Wert county, during the week, which had an initial production of 50 barrels.

In the fields of Southern Ohio, operators are confining their operations to the oil fields, except to the southwest of the deep sand fields of Perry and Fairfield counties. Hocking county has more experimental work than any other. In an effort to broaden the southwest extension the test of the David E. Landis farm, in Madison township, four miles northwest of Logan, when completed the early part of the week, proved a duster. All interest in the deep sand territory is centered in the extension in Coal township, Perry county, and all Gore township, in Hocking county.

COSTS ABOUT \$4000.

The contract for building the pipe conduit that is to replace the old wooden aqueduct across the south fork of Licking creek, near Lake-side, was awarded to John Spurgeon of Kirkersville at a figure near \$4000, the amount appropriated for the work. A 3-foot cast iron sewer pipe will be used. This will be laid under the bed of the creek.—Buckeye Lake Breeze.

\$100 REWARD, \$100.

TO GIVE "CONS" FREE COURSE IN CORRESPONDENCE

Waupun, Wis., Aug. 22.—Each prisoner in the Wisconsin state pen who so desires may file his application today for a correspondence course at the expense of the state. It is also announced by Acting Warden Daniel Woodward that prisoners will not be short on entering the institution.

Simultaneously with the announcement of reforms in the prison chapel, guards made the first thorough search of the prison in eight years. They found 153 knives, innumerable saws and other implements. It is the belief of the authorities that a plot was on foot for a wholesale jail delivery.

Aims in India.

In India no beggar is refused alms. He is always given either money or a small dose of rice, no inquiry being made as to whether he deserves help. The mendicant thus obtains enough for the daily needs of himself, family and lazy relatives.

DON'T BUY BOTTLED PROMISES

Newbro's Herpicide is Bottled Results—Results Are What You Want.

A feeling of uncertainty, a dread of possible disappointment always goes with an "off brand" hair preparation. That is part of the purchase, just as much so as the label on the bottle.

You don't get this with a bottle of Newbro's Herpicide. It is not an experiment. You number among your acquaintances and friends hundreds who have used Herpicide with satisfaction, and you know that you can do the same. The results are always positive, always right.

Newbro's Herpicide kills the dandruff germ and stops falling hair. Any druggist will sell you a one dollar size bottle under an absolute guarantee.

Send 10c in postage for sample and booklet to The Herpicide Co., Dept. R., Detroit, Mich.

Applications obtained at the best barber shops.

HEAT MAKES CHILDREN ILL

Summer is a very trying period for young children, and many a child who is usually healthy suffers during the heated term. There are many dangers for the child in summer. These lie in milk, food, water, fruit, etc. The greatest peril is from some form of stomach or bowel trouble. It is usually the starting point of graver troubles. The child becomes constipated, or gets indigestion. Perspiration is interfered with, worms develop, the skin becomes scaly and itchy, and the poor child is in much misery. Do not let it go, and trust to luck or fate for a cure. Use a remedy like Dr. Caldwell's Syrup Pepsin, which is intended to cure that very condition and is especially adapted to children's ills because of its mildness and purity. If the child has any of these symptoms, or has not had a passage in 24 hours, it needs Dr. Caldwell's Syrup Pepsin at once. It will act promptly but gently, and as it is pleasant to take you will not have to force it. A bottle can be obtained of any druggist at 50 cents or \$1.00, and you should obtain a bottle today, so as to have it on hand for an emergency. If you have never tried it you can obtain a SAMPLE BOTTLE FREE OF CHARGE by addressing

Thirty Years Together.

Thirty years of association—think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad one. So there is no guesswork in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years, and it's the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it for forty years. It is the most infallible throat and lung medicine on earth. Unequalled for lagrippe, asthma, hay fever, croup, quincy or sore lungs. Price 50c, \$1. Trial bottle free. Guaranteed by F. D. Hall.

FRED J. HEMIG SUPERINTENDENT AT HOWELL CO.

An Advocate reporter had occasion to visit the George E. Howell Provision Company's plant on Wilson street Tuesday morning, and while there met the new superintendent, Fred J. Hemig, who succeeds Chas. G. Hadden, who has been with the plant for the past five years as its superintendent.

Mr. Hemig comes from Chicago, where he has made his home for the past 20 years. During that time he has been connected with Swift & Co.'s mammoth packing plant in that city. One might say that he had grown up in the business, for he has been connected with meat packing plants ever since he was a mere youth.

When Fletcher S. Scott, the manager, introduced the new superintendent to the reporter, he was agreeably surprised to find in him a man of culture and education. Mr. Hemig is greatly pleased with the Howell plant, and to the reporter he said that it was one of the best equipped that he had ever seen and that it was capable of turning out a product as good as Swift's "Premium" or Armour's "Star" brands or any other brands in the market.

Mr. Hemig is 37 years of age and has had a practical experience in the packing business of 19 years. He has a family, consisting of his wife and three sons, and says that it is his intention to remove them to Newark in the near future.

Mr. Hemig says that when he first looked over the plant on his arrival here he was at once impressed with its great possibilities in the way of shipping facilities, and when the T. & O. C. connects with Newark this feature will be greatly enhanced. Side tracks connecting with the Baltimore & Ohio and Pennsylvania lines run up to the very doors of the plant.

Mr. Hemig comes direct to Newark from the plant of Felsler & Sons in Chicago, with which he was connected for some time previous to coming to Newark. He is a gentleman in every sense of the word, and the Advocate predicts that he will make good and that the Howell packing house will greatly extend its business through his efforts.

Thomas J. Coster, superintendent of the fertilizer department of the plant, informed the reporter that he was working 14 hands at present, and that the output, which amounted to about 95 tons per day, was being shipped to all parts of the state. He said that he had been connected with the fertilizer department of the plant since last December and during that time the business had greatly increased; that entirely new machinery had been installed, necessitating the enlargement of the building, and that the capacity had nearly doubled.

ITCHING SKIN QUICKLY COOLED

Hot weather means skin trouble for many people, but now you can stop the itch instantly.

Just a few drops of the cooling and healing winter green lotion and the itch is gone—not in half an hour—not in ten minutes—but in five seconds.

This simple wash is known as D. D. D. Prescription for Eczema, and usually sells for \$1.00 a bottle, but now by special arrangement you can get trial size bottle for 25 cents. This will be enough to show you why we always recommend D. D. D. for all skin troubles. D. D. D. gives instant relief. F. D. Hall, 10 N. Park.

WAGNER'S LEG NOT BROKEN.

Pittsburg, Aug. 22.—Definite announcement was made last night that the injured ankle of Hans Wagner, shortstop of the Pittsburg baseball team, shows no break and that the well known ball player sustained only a severe sprain. While it is said Wagner will not be able to join the team until after the present eastern trip, Wagner entertains hopes of playing at least a few games with the club before the eastern invasion comes to an end.

SHOOTS WIFE AND HIMSELF.

Dcs Moines, Aug. 22. — Dallas Clements, aged 34, shot and almost instantly killed his wife, Mrs. Fay Clements, here yesterday afternoon. He then shot himself fatally.

ROBBED OF \$100; ENDS LIFE.

Perry, Aug. 22.—Despondent, it is said, because he was robbed of \$100, the savings of a long period, while on a visit to Cleveland last Thursday, August Welander, aged 50, committed suicide here yesterday, cutting his throat with a razor.

SEPARATE WAISTS.

The waists to be worn with tailored suits this fall, both in design and trimming effects, are influenced by the East Indian note so much in evidence since the coronation. They are made of chiffon, voile, crepe de Chine in the suit shades, and are embroidered with the new worsted embroidery and striking bead-work trimming, which are decidedly Hindu in character and coloring. This will make most attractive home work for women who delight in fashioning their own blouses and adding individual touches of hand-work to them. —Harper's Bazar.

To The Women

Some women are just a trifle timid about going to a bank to transact business. And why? Simply because they are not familiar with the rules of banking. This shouldn't be so, and, indeed, this isn't so with those who come to this bank, for we aim to make every transaction so clear and so plain, that dealing with a bank soon becomes to them an easy habit.

We appreciate the patronage of women. Their business with us is already large and steadily increasing. If you are not now a patron, then please consider thisan invitation to become one.
